

# 2025 Photovoltaic Inverter Competition

Which countries dominated the global PV inverter market in 2022?

APAC dominated the global PV inverter market, with over 46% share in 2022. India, China, Australia, South Korea, and Japan mainly drive the region's market growth. Strong economic growth coupled with rising construction activities and increasing disposable income has primarily supported the market growth in the region.

What is the global solar PV inverter market like in 2023?

Global solar PV inverter shipments grew by 56% in 2023 to 536 GWac, with China accounting for half of all shipments as the country's solar demand doubled in 2023, according to the latest analysis by Wood Mackenzie. The top 10 PV inverter vendors, led by Chinese giants Huawei and Sungrow, controlled 81% of the global market.

How PVBL ranked the top 20 global photovoltaic inverter brands in 2023?

On the first day of the conference, PVBL's annual ranking of the Top 20 Global Photovoltaic Inverter Brands was announced. Preferential policies promoted the inverter market growth in 2023. Most of the major inverter companies won a large amount of orders and expanded their capacity with high shipment volume.

What is the demand for PV inverters in 2022?

Modern house decors demand improved aesthetics, driving the demand for products such as PV inverters. The offline distribution channel dominated the global PV inverter market in 2022, and the segment is expected to witness an incremental growth of over USD 1.76 billion during the forecast period.

What is the global PV inverter market?

The global PV inverter market product type includes string, central, micro, and others, and in 2022, string inverters accounted for most of the global PV inverter market share. Unlike traditional inverters, string inverters are easier to install and less costly.

Which inverter companies are leading the market growth in 2023?

Preferential policies promoted the inverter market growth in 2023. Most of the major inverter companies won a large amount of orders and expanded their capacity with high shipment volume. Sungrow and Huawei tied for first place in the list with outstanding performance.

APAC dominated the global PV inverter market, with over 46% share in 2022. India, China, Australia, South Korea, and Japan mainly drive the region's market growth. Strong economic growth coupled with rising construction activities and ...

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

# 2025 Photovoltaic Inverter Competition

The American-Made Promoting Registration of Inverters and Modules with Ecolabel (PRIME) Prize is a two-phase, \$2.7 million competition aimed at increasing EPEAT registration of solar ...

China has invested over USD 50 billion in new PV supply capacity - ten times more than Europe - and created more than 300 000 manufacturing jobs across the solar PV value chain since 2011. Today, China's share in all the ...

Das Ende der klassischen Einspeisevergütung: Was bedeutet das für PV-Anlagenbetreiber? Die Photovoltaik-Branche steht vor einer der größten Veränderungen seit ...

Up for grabs is a Solar PV install for a homeowner that's worth up to \$10,000 and includes all of the following: Installation of Solar PV panels on roof system; Standard single-phase inverter; ...

On the first day of the conference, PVBL's annual ranking of the Top 20 Global Photovoltaic Inverter Brands was announced. Preferential policies promoted the inverter market growth in 2023. Most of the major inverter ...

The Europe Solar Inverter Market is expected to reach USD 2.85 billion in 2024 and grow at a CAGR of 5.06% to reach USD 3.66 billion by 2029. Schneider Electric SE, Siemens AG, FIMER SpA, Mitsubishi Electric Corporation and ...

The PV inverter market size is valued at US\$ 15.28 billion by 2024, from US\$ 41.87 billion in 2031, at a CAGR of 15.5% during the forecast period. PV inverters are critical components in ...
