Its platform allows farmers to reduce input costs, restore soil health, increase yields and sell crops at a premium. The innovator guarantees adoption, longevity and affordability by co-designing products in the field, leveraging data and offering flexible financing solutions.

Agrosolar designs, distributes and finances solar-powered irrigation pumps to provide smallholder farmers with a sustainable and affordable alternative to conventional fuel pumps. The company has a vision to alleviate energy poverty, boost income and productivity, and combat climate change in rural Southeast Asia.

Agrosolar's objective of creating a roadmap for an omnichannel distribution strategy to reach our target of 10,000 systems installed. Agrosolar distributes directly to farmers and provides all services in-house, from lead generation to after-sales services. In order to scale, Agrosolar is seeking to partner with other players in the value
