Who is American energy storage innovations (AeSI)?

Given the enormity of the opportunity, the division becomes a free-standing company, American Energy Storage Innovations, Inc. AESI comprises highly experienced core team members who have developed five generations of large-scale BESS systems, heretofore having deployed more than 1.5 GWh worldwide.

What makes AeSI different from other energy storage integrators?

AESI designs and engineers all its energy storage products starting with the industry standard LFP cells upward,unlike integrators that buy modules and/or racks of modules from others and attempt to package them into a system,AESI starts with the cells and designs the optimum system around them.

The Leadership Team at American Energy Storage Innovations, Inc. is responsible for setting the strategic direction of the company, driving innovation, ensuring operational excellence, and overseeing the implementation of key initiatives across various departments.

We've designed and manufactured an entirely new line of energy storage products to meet the needs of grid energy storage, deployment, operation, and energy management for the next 20 years. Every detail in our AESI products makes them fundamentally easier to purchase, install, maintain and operate than any other energy storage alternative ...

American Energy Storage Innovations specializes in the design and manufacture of energy storage systems within the energy sector. Their products include safe, efficient, and reliable energy storage systems that are designed to be easy to purchase, install, operate, and maintain.

As the global energy landscape undergoes its most significant shift in over a century, American Energy Storage Innovations (AESI) is at the forefront, reshaping how we store and utilize power. Born from a bold spin-out of American Battery Solutions in 2023, AESI was established to answer one pressing question: How can the energy storage ...
