One of the characteristics that has smoothed Anguilla's path towards its goal has been the involvement of a volunteer group. The AREO is the active arm of the Anguilla National Energy Committee but is made up of interested volunteers, from government, the utility company, technology installers and consumers.

Anguilla This profile provides a snapshot of the energy landscape of Anguilla, a British overseas territory in the Caribbean. Anguilla's residential utility rates start at \$0.16 per kilowatt-hour (kWh), below the Caribbean regional average of \$0.33/kWh. Like many island nations, Anguilla is almost entirely dependent on

This project is a landmark development for Anguilla's future, and positions the island as one of the leaders in renewable energy throughout the region. Observers from other countries have also come to visit the new solar plant.
