Our philosophy is to provide a complete consultancy to our clients with a focus on reducing energy consumption and the flow on effects for the environment. Why solar energy?-Clean, renewable energy-Add value to your property

Aruba is blessed with an abundance of sunshine, and the island is taking advantage of this natural resource by investing in solar power. The government has committed to increasing the renewable energy share of electricity generation to 10 percent by 2020, and they are already well on their way towards achieving this goal.

Sunday night may provide another chance for many to see the spectacle. NOAA issued a rare severe geomagnetic storm warning when a solar outburst reached Earth on Friday afternoon, hours sooner than anticipated.

We have installed over 10,000 solar panels in Aruba since Mister Green was founded in 2016. We are proud to be the only company in Aruba that is fully focused on our customers keeping these two things in mind: How can you start saving money as soon as possible? How can we make the transition to sustainable energy, as easy as possible?

Brightening Aruba's Future with Solar Power! We're thrilled to announce the successful completion of a groundbreaking solar energy project for our esteemed partners, Aruba Wine & Dine! Engysol, your trusted solar energy companion, has transformed this local restaurant chain's power consumption with sustainable solar solutions.
