

Will Timor-Leste finance the power distribution modernization project?

1. The Government of Timor-Leste has requested the Asian Development Bank (ADB) to consider financing the Power Distribution Modernization Project (the Project). The objective of the proposed Project is to increase access to reliable electricity supply, aligned with the government's Strategic Development Plan 2011-2030.

What fuel does Timor-Leste use?

The power sector in Timor-Leste runs almost entirely on imported diesel. Roughly 90% of the sector's operating costs are fuel costs associated with power generation. In 2013, the government spent \$100.8 million on fuel for power generation out of the \$114.6 million it had allocated to the sector.

Is biomass a source of electricity in East Timor?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. East Timor: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

Does Timor-Leste have electricity?

Stakeholders confirmed that the state delivers Timor-Leste's national electricity supply, with no private actors involved. The electricity system's power stations and transmission lines, including those being modernised through assistance from the Asian Development Bank, are shown in Fig. 4.

Which power plants supply most of Timor-Leste's electricity?

Two newly constructed power plants supply most of Timor-Leste's electricity: (i) the 119-megawatt (MW) Hera plant, located near Dili, became operational in 2011; and (ii) the 136 MW Betano plant, located in the Manufahi district on Timor-Leste's south coast, became operational in 2014. This summary is based on ADB. 2014.

What are the main sources of energy in Timor-Leste?

Fossil fuels in Timor-Leste are imported from neighbouring countries such as Indonesia and Australia. Seventy-five percent of oil imports are used for electricity production, with the remaining 25 percent consumed in the transport sector. Other sources of energy. Lighting needs are met by the use of kerosene, plant oils and batteries.

The project is expected to comprise of a utility scale photovoltaic (PV) solar power plant of up to 100 megawatt (MW) and supporting infrastructure. A Battery Energy Storage System (BESS) may be added for the storage of renewable power.

This interactive chart allows us to see the country's progress on this. It shows the share of electricity that comes from low-carbon sources. We look at data on renewables and nuclear power separately in the sections

which follow.

1. The Government of Timor-Leste has requested the Asian Development Bank (ADB) to consider financing the Power Distribution Modernization Project. The objective of the proposed project is to increase access to reliable electricity supply, aligned with the government's Strategic Development Plan 2011-2030.

The price of diesel-fueled electricity generation in Timor-Leste is estimated at \$0.42/kWh. The government's diesel import bill increased from \$40.8 million in 2017 to a budgeted amount of \$109.0 million in 2020.

Timor-Leste, in Southeast Asia, emerged from decades of conflict in the late 20th century to become an independent nation in 2002. A key focus for the new nation has been to improve energy access via the rapid roll-out of an electricity network.

The project is expected to comprise of a utility scale photovoltaic (PV) solar power plant of up to 100 megawatt (MW) and supporting infrastructure. A Battery Energy Storage System (BESS) ...

The World Bank Group works in every major area of development. We provide a wide array of financial products and technical assistance, and we help countries share and apply innovative knowledge and solutions to the challenges they face.

The price of diesel-fueled electricity generation in Timor-Leste is estimated at \$0.42/kWh. The government's diesel import bill increased from \$40.8 million in 2017 to a budgeted amount of ...

Timor-Leste has experienced substantial political turmoil since 1975, when the Republic of Indonesia annexed it as a province. In a 1999 referendum, Timor-Leste's population voted overwhelmingly in favour of independence from Indonesia.
