Back up solar battery Cayman Islands

Solar Power Storage. Although Cayman enjoys over 300 days of sunshine a year, you will need to consider an alternative source of power should there be insufficient sunlight. One such option is the Tesla Powerwall battery. These rechargeable lithium-ion batteries are wall-mounted and can be stored either outside your home or inside your garage.

When a SunPower solar system is paired with battery storage you can have power during short and long term periods when the grid is down. Why GreenTech? GreenTech Solar is the only solar company in the Cayman Islands who has their own factory trained and certified in-house design and installation team, thus always ensuring quality control of our ...
