

Bahamas solar plate online apply

What is net metering in the Bahamas?

This will introduce net-metering, which is the recording of energy flows in both directions. As the Bahamas has close to six daily peak sun hours. Solar Power can offset a significant part of your power bill. Our goal is to design and build systems that can achieve maximum independence from the ever increasing cost of power.

Who does Bahamas solar work with?

Bahamas Solar works with a number of the leading solar manufacturers and distributors across the globe.

Why should you choose Bahamas Power & Light Company Ltd?

Our Commitment to Sustainable Energy. At Bahamas Power and Light Company Ltd., we believe in a future powered by sustainable energy. We are committed to harnessing the potential of our natural resources to provide you, our valued customers, with not just reliable energy but a cleaner and greener future.

The Small Scale Renewable Generation (SSRG) Program is a program now becoming available due to recent changes to the Electricity Act and Regulations. These changes now establish a process through which BPL customers can apply for and obtain approval for compliant Non-Grid Tied and Grid Tied renewable energy systems. Who Qualifies for the program?
