

Is Bahrain's first solar panel company the start of a sea change?

This is good news for Solar One, Bahrain's first solar panels company. Since its founding in 2017, the startup boasts of contributing over two megawatts of solar to the country's energy mix -- enough to power around 380 US homes. It's a drop in the ocean, but it hopefully marks the beginning of a sea change.

What is the barrier to solar panels installation in Bahrain?

The results of the study did not identify a specific item perceived as the barrier to solar panels installation in Bahrain. This is likely due to the relatively new nature of solar panel installation in Bahrain and the participants' lack of clarity on the specifics involved.

Is Bahrain transitioning to solar energy projects?

After the establishment of the Sustainable Energy Unit (SEU) in Bahrain in 2014, a radical transition toward launching solar energy projects can clearly be observed. The SEU was established in collaboration between the national government and the United Nations Development Program (UNDP).

Are Bahrainis willing to pay the full cost of solar PV systems?

According to the cross tabulation results, majority of participants who were willing to pay the full cost of residential solar PV systems were Bachelor degree holders with the average per-capita monthly income for Bahrainis.

Is solar PV a social issue in Bahrain?

Although there are fewer peer-reviewed studies on the social aspects of solar PV compared to technical studies, the present research sheds light on public perspectives on this topic in Bahrain. In fact, it used a cross-sectional design for this purpose.

Who is Solar One?

We have formed strong relationships with both the public and private sector to deliver high-quality, cost-competitive products and services to the market. Solar One has evolved from operating purely as a module manufacturer to a full-on project developer, adding an EPC arm to the company in mid-2017.

Bahrain has become an unlikely hub for solar panels which could make it a role model for other energy superpowers in the Persian Gulf, showing them not only how to expand its use but also how to diversify their economies away from fossil fuels.

GAC Bahrain will be installing photovoltaic solar panels on the rooftop of its warehouse in Bahrain Investment Wharf in Al Hidd, as part of the wider GAC Group's commitment to environmental protection and reduce its carbon footprint.

Bahrain new solar companies

Solar One is Bahrain's first solar panel manufacturing facility. Our mission is to produce high quality solar panels using state of the art technology. To provide clean, free energy for everyone.
