

Barbados nahui energy

What is the Barbados national energy policy (BNEP)?

This Barbados National Energy Policy (BNEP) document is designed to achieve the 100% renewable energy and carbon neutral island- state transformational goals by 2030. These include: Provision of reliable, safe, affordable, sustainable, modern and climate friendly energy services to all residents and visitors.

Why should Barbados invest in the energy sector?

The energy sector in Barbados should be invested in to foster development, promote energy security, reliability, affordability, and establish and maintain a sustainable sector. This can be achieved through innovation and workable partnerships which promote a strong economy and a healthy environment.

Does Barbados need a BNEP?

The BNEP provides a basis for building on these successes while seeking to expand the use of these and other renewable energy technologies such as wind and biofuels. However, even as Barbados promotes the development of renewable energy, there are ongoing plans to explore for fossil fuel resources offshore.

Should Barbados invest in fossil fuels offshore?

However, even as Barbados promotes the development of renewable energy, there are ongoing plans to explore for fossil fuel resources offshore. This patrimony will be pursued aggressively with the view to maximise foreign exchange gains from the export of any exploited hydrocarbons.

Why is solar water heating so popular in Barbados?

Indeed, the success of the solar water heating industry is a source of pride for the country, the recent development of the local solar photovoltaic (PV) industry and the burgeoning electric vehicle market in Barbados are also encouraging.

NAHUI is a renewable energy platform company owned entirely by the Haier Group. It covers three key industries: Photovoltaic, Power Conversion, Energy Storage, developing a comprehensive service platform of solutions for an ever growing and expanding market.
