

Türkiye and the World Bank on Thursday signed an agreement for a \$1 billion program to accelerate expansion of renewable energy. The program will help establish and expand Türkiye's market ...

Progresiva, a subsidiary of Kontrolmatik Technologies, is set to embark on Türkiye's largest grid-scale energy storage project in Tekirdag. This groundbreaking facility will ...

Turkey-headquartered lithium-ion and energy storage manufacturer Kontrolmatik Technologies will deploy a 1GWh energy storage project on home soil with financing provided by Chinese energy firm Harbin Electric.

This innovative program will help establish and expand Türkiye's market for distributed solar energy and pilot a program for battery storage, in support of the country's National Energy ...

A 300MW/600MWh battery energy storage system (BESS) developed by Ørsted will be co-located with its Hornsea 3 Offshore Wind Farm onshore substation. Flow battery player Invinity claims new product can ...

The government of Turkey, currently processing applications for large-scale energy storage facilities at renewable energy plants, will raise import duties for lithium iron phosphate (LFP) battery products.

The scalable facility will focus on producing various lithium battery cells, such as 100Ah, 280Ah, and 314Ah, primarily targeting the Turkish and international energy storage system (ESS) markets. The facility, designed ...

Progresiva, a subsidiary of Kontrolmatik Technologies, is set to embark on Türkiye's largest grid-scale energy storage project in Tekirdag. This groundbreaking facility will be the first of its kind in Türkiye, boasting a GWh ...

This innovative program will help establish and expand Türkiye's market for distributed solar energy and pilot a program for battery storage, in support of the country's National Energy Plan. The government aims to significantly scale-up solar energy to 52.9 gigawatts (GW) by 2035 from 9.5 GW in 2022.

The scalable facility will focus on producing various lithium battery cells, such as 100Ah, 280Ah, and 314Ah, primarily targeting the Turkish and international energy storage system (ESS) markets. The facility, designed to span 132,200 square meters, will comprise an R& D center, a technical training center, an entry control and materials ...

Progresiva, a subsidiary of Kontrolmatik Technologies, is set to embark on Türkiye's largest grid-scale energy storage project in Tekirdag. This groundbreaking facility will be the first of its kind in Türkiye,

boasting a GWh capacity.

Turkey-headquartered lithium-ion and energy storage manufacturer Kontrolmatik Technologies will deploy a 1GWh energy storage project on home soil with financing provided by Chinese energy firm Harbin ...
