Why should you choose Baumann Federn AG?

BAUMANN has a worldwide reputation for extraordinary precision, long life and quality of its products. Thomas H. Rüegg, Group CEO & Chairman of the Board of BAUMANN Federn AG We aspire to save and enrich lives across the globe through solutions that elevate health, comfort, safety, and efficiency.

The decision to establish a new production site in Changshu underscores BAUMANN's unwavering commitment to our leadership team and employees in China. By expanding our presence in China, we aim to better serve our customers in the region while further strengthening our position as a global leader in our industry.

While China's structural power position has expanded, China-related effects in productive power have so far remained limited and scattered. We conclude with a combined assessment of changes across power types and discuss research and policy implications.

Building on a four-legged power framework, we contrast the status quo of power configurations in UN development work with China's evolving attempts to exercise compulsory, institutional, structural and productive power.
