

As an innovative, medium-sized solar energy company, BELECTRIC's vision is to make a clear contribution to the energy transition. We foster the acceptance of solar energy and strive for climate protection.

Belectric remains in charge of development, construction and operation of the 172MW solar farm. Developers will create the new solar facility in the municipalities of Tramm and Lewitzrand, in the state of Mecklenburg, Western Pomerania. ...

There, we operate from BELECTRIC locations in six countries. The headquarters of BELECTRIC GmbH are situated in Kolitzheim (Germany). In addition to Germany, our focus markets include Israel, the Netherlands, Denmark, the United Kingdom, France, Italy, and Spain. How do we succeed in making solar power economically attractive internationally?

SkyVisor is excited to announce its partnership with BELECTRIC GmbH, one of Europe's leading EPC service providers in the development, construction and operation of solar power plants, to simplify and speed up their process of solar panel inspections. The collaboration marks a significant step forward in optimizing asset management.

Driving forward the energy transition and guaranteeing a future worth living to coming generations - this is what drives our day-to-day work at BELECTRIC. With more than 20 years of experience, we are your ideal partner for the development and construction of solar power plants and for all matters relating to solar energy and battery storage.

BELECTRIC is one of the world's leading EPC service providers in the development, construction and operation of solar power plants. The solar energy specialist looks back on more than 20 years of experience in power plant construction and has built more than 500 PV systems with over 4.8 gigawatts of capacity worldwide.

The acquisition means significant growth for RWE, as Belectric has built more than 280 utility-scale PV plants and rooftop solar systems with a total installed capacity of more than 1.5 gigawatts peak (GWp). As well as focusing on the European market, Belectric’s solar and storage services expand over the MENA region, India ...

For RWE, which completed the acquisition of Belectric Solar & Battery in early 2017, the divestment deal comes as the company today (15 November) revealed plans to increase its solar capacity...
