

Bonaire Sint Eustatius and Saba sistema de armazenamento de energia

What are Bonaire & Sint Eustatius?

These are the islands of Bonaire, Sint Eustatius, and Saba, [10][nb 1] as they are also known in legislation, or the BES islands (an acronym of their names; most people believe, however, it's an acronym for 'Bijzondere Eilandelijke Status' meaning special island status) for short.

Are Bonaire and Sint-Eustatius honoured?

Late last week, the good news was received that the project proposals of Bonaire, Sint-Eustatius and Saba were honoured. They are the only islands in the Caribbean whose proposals made it through the selection.

Who is the representative of Bonaire Sint Eustatius & Saba?

The Representative for the public bodies of Bonaire, Sint Eustatius and Saba represents the Government of the Netherlands on the islands and also performs tasks similar to a King's Commissioner. [citation needed] The current representative is Gilbert Isabella.

Does EU law apply to Bonaire Islands?

The islands are officially classified as public bodies [11] in the Netherlands and as overseas territories of the European Union; as such, European Union law does not automatically apply to them. Bonaire (including the islet of Klein Bonaire) is one of the Leeward Antilles and is located close to the coast of Venezuela.

Where is Bonaire located?

Bonaire is part of the ABC islands within the Leeward Antilles island chain off the Venezuelan coast. The Leeward Antilles have a mixed volcanic and coral origin. Saba and Sint Eustatius are part of the SSS islands within the Leeward Islands. They are located east of Puerto Rico and the Virgin Islands.

Bonaire, Sint-Eustatius and Saba are in the selected group of 30 islands that have been chosen by the European Union (EU) to take part in the "30 for 2030" project. The islands, which were selected after an extensive selection process, can count on intensive support from the EU to realise their ambition to have fully sustainable energy ...

Bonaire, Sint-Eustatius, and Saba are in the selected group of 30 islands chosen by the European Union (EU) to participate in the "30 for 2030" project. The islands, which were selected after an extensive selection process, can count on intensive support from the EU to realize their ambition to have fully sustainable energy facilities by 2030.

Bonaire (including the islet of Klein Bonaire) is one of the Leeward Antilles and is located close to the coast of Venezuela. Sint Eustatius and Saba are in the main Lesser Antilles group and are located south of Sint Maarten and northwest of Saint Kitts and Nevis.

Bonaire Sint Eustatius and Saba sistema de armazenamento de energia

A climate impact atlas provides basic knowledge on climate change by turning scientific knowledge into accessible insights. For Bonaire, Sint Eustatius, and Saba (the BES islands), there are many organizations working on topics related to climate change. At the same time, there is still limited data available on climate impacts.
