

The Hungarian Battery Week aims to: Provide an opportunity for open, public stakeholder debate on the future of the Hungarian and regional battery and e-mobility industry; Review how can this sector contribute to our common climate goals; Provide a platform to discuss how the battery and e-mobility industry can become more competitive

Boston-Power Inc. raised \$30 million this week from U.S., European and - yes - Chinese investors, as it continues to develop lithium-ion battery cells, blocks, modules and systems for electric and hybrid vehicles, notebook computers and other products.

Boston Power manufactures and markets lithium-ion batteries for transportation, utility energy storage, portable power, and government market applications internationally. It offers battery cells, blocks, modules, and systems; lithium-ion batteries for electric vehicles; and custom solutions for various format battery packs.

Boston-Power is a leading developer and manufacturer of next-generation lithium-ion battery cells, blocks, modules and systems. Designed to fuel a wide range of applications, its flagship offerings, Swing and Sonata, serve as the foundation for a new era of longer lasting, faster charging, safer and environmentally sustainable batteries.

When Hungary takes over the helm of the European Union on July 1, many politicians in Brussels will have the same thing on their minds: whether populist Prime Minister Viktor Orbán will use the ...
