African Sun Energy is a clean energy company located in Botswana and specializes in the provision of off-grid/grid-tied solar photo-voltaic systems and solar PV pumping systems. We develop, design, build, finance, and operate ...

SolarBW and its affiliate, Widowbird Solar Solutions based in Botswana and South Africa are family-owned companies with over 35 years of experience, specializing in the photovoltaic sector, designing and installing high quality, large scale commercial and residential systems throughout Southern Africa, specifically Botswana and South Africa at ...

We are the proud distributors of some of the worlds" leading solar brands and products. Our strategic partners include Freedom Won Batteries, Fronius Inverters and Monitoring Systems, Renewsys Solar PV Modules and all Victron Energy Products.

The country"s vast, open landscapes receive consistent sunlight, which can be effectively converted into electricity using photovoltaic (PV) technology. This natural advantage allows Botswana to not only meet its domestic energy needs but also to explore opportunities for exporting solar-generated energy to neighboring countries and beyond.

African Sun Energy is a clean energy company located in Botswana and specializes in the provision of off-grid/grid-tied solar photo-voltaic systems and solar PV pumping systems. We develop, design, build, finance, and operate projects at a range of different scales, currently at a residential level to utility-scale grid-tied projects.

Botswana"s first grid-connected PV projects entered construction in August 2022. The two projects, located in Bobonong and Shakawe, have a total capacity of 3MW and 1MW, respectively, and mark a milestone in the country"s solar power journey.

Off-Grid Solar Solutions: The government is rolling out off-grid solar solutions, such as solar home systems and solar water heaters, particularly targeting rural areas. Mini-Grid Projects: Botswana is developing mini-grid solar PV systems in various villages.
