

Can I put a fish tank in an IKEA storage cabinet

Do you use IKEA cabinets for Big aquariums?

This guy uses Ikea cabinets for big aquariums but with some modifications. I have a 16 litre aquarium on an Ikea Kallax 4x3 with a varnished plank of wood on top. Even though aquarium is only 16 litres the Kallax wobbles more than I would like. I would maybe put a 45P or 60P on it but no more.

Would a IKEA aquarium stand be suitable for an aquarium?

Ikea is made for a price to do a specific job and, that was not an Aquarium stand. Would it be suitable for an Aquarium definitely not. It was possibly made and sold at a Box kit, a lightweight processed board certainly not moisture or water proof. As for such a heavy load eg Aquarium totally unsuitable.

Can I use IKEA furniture on a 35 g tank?

They are made from MDF. My Deep Blue 35g cube stand is 5/8" MDF and put together with those twist lock fasteners. I'd say IKEA furniture would be fine as long as it was sturdy and designed to hold weight... like a heavy tv stand or something. I've used IKEA furniture on up to 40g tanks, and would go higher.

Will IKEA furniture handle a 30 gallon water tank?

Just not worth the risk. They are mostly plywood/particle board and mdf with cheap fasteners. Considering SW weights 8.6 lbs per gallon for a 30 gallon tank you are looking at 258lbs of water. I don't think IKEA furniture will handle that. Besides I think most of the furniture is made out of Particleboard which does not go well with water.

Does IKEA furniture handle water?

They are mostly plywood/particle board and mdf with cheap fasteners. Considering SW weights 8.6 lbs per gallon for a 30 gallon tank you are looking at 258lbs of water. I don't think IKEA furniture will handle that. Besides I think most of the furniture is made out of Particleboard which does not go well with water. Have you seen Red Sea stands?

How do I choose the best for my Aquarium?

Please check the weight of your aquarium plus water and accessories before choosing the BEST; for your tank. Furthermore, the BEST; frame is made from particleboard with a honeycomb structure paper filling, so please ensure the unit is kept dry to minimise risk of the material swelling.
