

# Can lockers be customized

Do you need custom lockers storage?

The need for custom lockers storage is greater now than it has ever been before. The need for custom storage lockers is greater now than it has ever been before. As we move to more open plan offices where hoteling is becoming the norm, employees need a new way to store their personal belongings.

What is a custom storage locker?

Custom Storage Lockers are lockers that are designed and manufactured to meet specific requirements.

Are custom lockers a good solution for employee storage?

Lockers are an excellent solution for employee storage, but they are needed for many other applications too. Custom Lockers offer a place to securely store police uniforms and gear, and somewhere to keep sterile supplies clean.

How can I customize my lockers?

At Sport Lockrz, you can customize our lockers to match the colors of your school, garage, or favorite team; the options are virtually endless. Choose the accessories that meet your equipment needs and add a personal touch with a custom nameplate. Our lockers help prevent funky odors and harmful bacteria by properly caring for and storing your equipment.

Why do I need a locker?

Many projects require lockers to fit into existing alcoves or require a different mix of styles for different users. We are specialists in manufacturing lockers to suit the specific needs of the client and the project. Following our standard process, we work with you to design, supply and install (if necessary) the perfect solution for you.

Are bespoke lockers expensive?

The manufacture of a bespoke design is not as daunting or expensive as it sounds. Many projects require lockers to fit into existing alcoves or require a different mix of styles for different users. We are specialists in manufacturing lockers to suit the specific needs of the client and the project.
