How does Chile calculate a stabilized price per megawatt?

Through Supreme Decree 244 of 2005, Chile implemented a framework to calculate a stabilized price per megawatt for PMGDs. This was revised through Supreme Decree 88 of 2019, by which Chile adjusted the framework for the stabilized price.

Will Chile subsidize electricity costs?

The Chilean Congress is currently considering a legislative proposal introduced by the Chilean Government aimed at subsidizing electricity costs for approximately 4.7 million households.

However, the latest bill now threatens to change the structure that has attracted many investors to the renewable energy sector in Chile. Chile has been known for being one of the most politically stable countries in Latin America.
