Onasolar is a prominent solar energy company in Egypt that collaborates with corporate enterprises to deliver solar energy projects. The company serves multinational companies, farms, manufacturers, and distributors, with headquarters in Cairo and facilities throughout Egypt. [clicking here](#).

Who is mecha solar Egypt?

Photo credit: Mecha Solar Egypt. Mecha Solar Egypt, founded by Abdelrahman Mahranin 2016, specializes in renewable energy project development with a primary focus on solar energy solutions. The company's core activities involve identifying, developing, and financing viable renewable energy projects.

Where can solar power be developed in Egypt?

Utility-scale PV development has, thus far, clustered around Aswan in the south of the country, where solar resources are strongest and there is plenty of land for development. The biggest chunk of Egyptian solar capacity is provided by the Benban project, which lies 50 km from Aswan and is one of the world's biggest PV sites.

Why should you invest in solar energy in Egypt?

Since 2014, Egypt has enacted various renewable energy legislations, laying the foundation for pioneering companies to thrive in the market. The companies that emerged and later became staples in the solar energy ecosystem play a crucial role in advancing solar energy solutions.

We believe clean, sustainable energy should be accessible, this is why our mission is to generate affordable & renewable energy solutions to every community and industry around Egypt and MENA. Our vision is to harness natural energy to power Egypt and the MENA region at the lowest possible prices.
