

TEP Ex is a regional leader in manufacturing of explosion protected (Ex protected) electrical equipment. Through continuous development of new products and markets, modernization of technology and investment in company employees and organization, we continue the tradition of more than 60 years of experience in the field.

The company Elektromontage EM d.o.o., which usually is providing industrial installation services abroad, in 2023 started working on house and commercial installations in the Republic of Croatia. We perform all types of electrical work, whether on existing or new buildings and also we are characterized by accuracy and precision in performing works.

The wide range of Montelektro's services includes the production of electrical cabinets. We offer various types of low-voltage electrical cabinet for industry, such as: o Motor control centers (MCC) o Cabinets for AC & DC regulated ...

Voltage regulation points that deliver power from transmission systems to residential and industrial consumers. We manufacture two versions of distribution substations - for outdoor and indoor installation. Our partners can rely on our ...

With increased sheet thickness and improved construction, it stands out as the most robust cabinet on the Croatian market, and represents a blend of the company's tradition and modernity. As with all previous models, Zulu features a front panel illuminated logo and can be plastic-coated in the client's chosen colour.

We manufacture single-pole or three-pole metal enclosed switchgear for primary distribution, rated voltage up to 420 kV, rated current up to 4,000 A, with rated breaking capacity of 50 kA, 3 s. Designed with minimal overall dimensions, the solution ensures a higher degree of ...

Voltage regulation points that deliver power from transmission systems to residential and industrial consumers. We manufacture two versions of distribution substations - for outdoor and indoor installation. Our partners can rely on our comprehensive solutions that include equipment delivery, assembly, testing, and on-site commissioning.

PrismaSeT 6300 is the latest generation of functional low-voltage type-tested power distribution cabinets up to 6300 A. Distribution cabinets made with PrismaSeT 6300 have been type tested and comply with IEC 61439-1& 2 standards, a complete Schneider Electric power distribution system, which provides top-quality electrical, mechanical and ...

We manufacture all sorts of power distribution cabinets, from simple house switch electrical cabinets to low

voltage switchgear blocks and DC distributions in transformer substation, all for industrial, constructional and distributional needs.

The wide range of Montelektro's services includes the production of electrical cabinets. We offer various types of low-voltage electrical cabinet for industry, such as: o Motor control centers (MCC) o Cabinets for AC & DC regulated drives o Process control boxes (PCB) o PLC & DCS cabinets o Power distributions cabinets (LVD)

Energy distribution cabinets. We design, manufacture and install complete container energy distribution systems for specific user needs: mobile datacenters, prefabricated plants, mobile drilling rigs for the petroleum industry and many others.
