

What is DMCC's the future of Trade report?

DMCC's The Future of Trade report (Energy Markets, Trade and Transition Edition) offers exclusive insights into the MENA region's competitive advantages as the world transitions to a green energy future. The report also explores the market trends and prices, oil and gas movements and the rise of low-carbon and renewable energy technologies.

What is DMCC doing with the energy sector?

The energy sector has become one of the largest and fastest growing segments at DMCC, recording a remarkable 15% year-on-year increase in member companies over the past five years.

What is the DMCC energy ecosystem?

Facilitating the import and re-export trade of a wide array of energy commodities, the DMCC Energy Ecosystem, which is home to more than 3,000 member companies, meets the increasing demand for both traditional and renewable energy sources, while balancing the reliability of conventional energy with the innovative potential of renewables.

How many DMCC companies are there?

DMCC's base of energy-focussed companies has crossed 3,000. And of these, more than 1,500 entered in the last 3 years. Image Credit: Supplied Energy has emerged as one of the few cross-border sectors to traverse the complexities of geopolitics, economics, and the green agenda while retaining a meaningful impact on businesses and consumers.

What makes DMCC unique?

Placed within a region renowned for its hydrocarbon economy, DMCC stands out as a competitive centre not only for conducting business, but for incorporating every aspect of energy into its ecosystem.

Who are DMCC members?

DMCC's members include Aramco Trading, a subsidiary of Saudi Aramco, Mercuria, Petronas, Monjasa and Trafigura, and while each has a different reason for incorporating, the broad answer from several C-suite members has been its ecosystem and the fact that the community is populated with experienced energy experts.
