Will W&#228;rtil&#228; supply the Caribbean island of Cura&#231;ao with a battery energy storage system?

WILLEMSTAD,Cura&#231;ao,May 20,2024 (GLOBE NEWSWIRE) -- Technology group W&#228;rtil&#228; will supply the Caribbean island of Cura?ao with a 25 MW /25 MWh Battery Energy Storage System(BESS).

How will a battery energy storage system benefit Cura&#231;ao?

The implementation of a Battery Energy Storage System will allow Cura&#231;ao to collect energy from renewable sources such as wind and solar energy and store it using advanced battery storage technologies. This stored energy can be released to mitigate the intermittency of wind power and ensure grid stability.

Who is putting a Bess order in Curacao?

The order was placed by Aqualectra,Curacao's government owned utilities company,and will be booked by W&#228;rtil&#228; in Q2,2024. The BESS and the GEMS Digital Energy Platform will provide grid stability and reliability,reduce unserved energy and help mitigate the risk of brownouts and blackouts.

When did Aqualectra start negotiating a battery energy storage system?

Negotiations for this Battery Energy Storage System began in January of this year,when Aqualectra's management team traveled to the W&#228;rtili&#228; headquarters in Finland with a vision,firm determination and clear objectives to make it all happen.

Technology group W&#228;rtil&#228; will supply the Caribbean island of Cura?ao with a 25 MW / 25 MWh Battery Energy Storage System (BESS). The system will enable the expansion of renewable energy capacity and the reduction of carbon emissions, representing an important step towards a sustainable energy future for the island.
