

Will Kosovo offer a 100 MW solar PV project?

Kosovo is holding a competitive auction for a 100 MW solar PV project. This is a tremendous opportunity for the country to partner with international and local investors to expand renewable energy generation. As a first step, we encourage developers and investors to review the Contract Notice and Prospectus, available via the links below.

What is the Kosovo solar auction?

Conducted through an open and transparent process, the Kosovo solar auction will offer investors a number of critical advantages, including guaranteed price assurance, streamlined administrative procedures with government agencies, and no land acquisition costs. The Auction process is underway:

How will e-auction work in Kosovo?

The Kosovo Public Procurement Regulatory Commission demonstrated how the e-auction will work and how it will ensure transparency and fairness. Representatives from EBRD, IFC, and the EU discussed their work in Kosovo, emphasized the potential positive impact of the auction, and expressed their readiness to support potential investors.
