Our engineers install high performance JA Solar /REC and Sun Power solar modules together with SolarEdge optimisers and inverters.

Will electricity prices rise on the Isle of Man?

Manx Utilities (MU) has announced that electricity prices on the Isle of Man are to rise by 30%. The increase will be applied in two increments: 15% in April and another 15% in July. This follows a 27.5% rise in Manx Gas bills, which was approved by Tynwald in October.

Is it time to install solar panels in the Manx?

Even on a bright Manx winters day a panel can generate a considerable amount of electricity (perhaps 30% of capacity). There is something very satisfying about receiving an energy bill from Manx Utilities which is not only zero, they might pay you because of excess energy sold to the grid. There has never been a better time to install solar.
