Who are Energate solar?

Who Are We ? Energate Solar is a leading manufacturer in the photovoltaic panel production industry with over 10 years of experience. Our company has earned a strong reputation for its commitment to quality, innovation, and exceptional customer service.

Is Madagascar ready for solar power?

With all regions of Madagascar enjoying over 2,800 hours of sunlight per year, the Grande Ile is the perfect location for development of solar power, with a potential capacity of 2,000 kWh/m<sup>2</sup>/year. The Government is counting on this potential to fulfill its objective of providing energy access to 70% of Malagasy households by 2030.

How much solar power does Madagascar have?

With only a 15% connection rate, Madagascar faces a chronic lack of access to electricity, which hampers its economic and social development. However, there is tremendous potential in terms of solar power, estimated at 2,000 kWh/m<sup>2</sup>/year as a result of the 2,800 hours of annual sunlight the country enjoys.

What will Energate do for the solar industry?

Energate, which will guide the solar industry with its years of experience in the sector and strong brand partnerships, will have a total production capacity of 1.9 GW with its 900 MW production capacity factories to be established in the USA and a factory with 1 GW production capacity in Turkey.

What is Energate energy?

Energate Energy manufactures photovoltaic panels and serves in the renewable energy field with factories in Turkey and the United States, boasting a decade of production experience. Chargegate produces electric vehicle charging stations contributing to the proliferation of electric vehicles and enhanced energy efficiency.

What is Scaling Solar in Madagascar?

Madagascar is currently the fifth country in Africa in which a Scaling Solar tender process was launched, after two tender processes in Zambia, one in Senegal, and another in Ethiopia. It is also the first Scaling Solar project to include solar energy storage requirements by pairing solar with batteries.
