

# Energy group Zambia

Who owns the energy project in Zambia?

Wholly owned by Zambian entrepreneurs, the project supports the diversification of Zambia's energy matrix and an increase in access to reliable and affordable power, a critical component of the country's long-term competitiveness and sustainable economic growth.

What are Zambia's energy resources?

As noted in the 7NDP, there is widespread agreement that Zambia has plentiful resources for electricity generation, including hydropower, solar, biomass, geothermal and coal. The challenge is getting investment in power plants that can convert these resources into useful electricity," Kabechani added.

What is the energy sector in Zambia?

The energy sector in Zambia, specifically the petroleum industry, is one of the key sectors of the economy. Petroleum is the only energy source that is 100 per cent imported in Zambia. In agreement with the Competition and Consumer Protection Commission, the petroleum sector has been identified as a special sector which requires analysis.
