Rising electricity price worries you? Enduring power cut too frequent lately? Solar Energy Storage is the answer to your problems. Join GoodWe webinar to learn more about our solutions and how they can offer stable electric & zero electricity bill for your family. Agenda: 3:00 - 3:10: Introduction of webinar & speakers

Solar & Energy Storage Future Philippines 2023 provides a platform for exchange and learning for leaders in the new energy industry around the world. In our past conferences, there were government officials, experience sharing from internationally renowned companies, and presentations by experts in different fields.

In early 2023 the Philippines Department of Energy (DOE) outlined new market rules and policies for energy storage, a month after the country allowed 100% foreign ownership of renewable energy assets. As the market aims for a renewable energy generation mix of 50% by 2040, where does BESS sit within the country's strategic plans?
