As we deepen our understanding of using industrial waste heat recovery technology for heating and cooling solutions, Shuangliang is gradually transformed from an equipment supplier into a system provider. Our services also cover energy performance contracting and energy management contracts.

Nearly 40 years, Shuangliang has developed into an integrated industry with three major systems of energy saving, water saving and environmental protection, including LiBr absorption central air conditioning system, industrial waste heat utilization system, absorption heat pump waste heat recovery system, flue gas condensation heat recovery ...
