

Built through a multinational effort, the pioneering 7.5 MW solar PV plant near the village of Mubuga has been in operation since May 2021 and now provides over 10% of Burundi's electricity, supplying clean power to tens of thousands of homes and businesses.

7.5 MW field result of multinational effort already provides more than 10% of nation's electric generation capacity; more to be developed Gitega/Mubuga, Burundi - 9 May 2023: President Ndayishimiye of Burundi today visited Gigawatt Global's solar power plant in Mubuga, Burundi, near the capital Gitega, the nation's first utility-scale ...

Unsere String Ribbon-Module werden mithilfe eines einzigartigen Fertigungsprozesses hergestellt, bei dem bis zu 30% weniger CO₂ entsteht, als bei konventionellen Fertigungsprozessen von Silizium-Solarmodulen. Unabhängige Praxistests von Photon International und TÜV Rheinland haben gezeigt, dass Module von Evergreen Solar mehr ...

INFORMATION. INFORMATION. über uns. Unser Team.

Evergreen Solar is committed to incorporating the latest advancements in solar technology, battery storage, and electric vehicle charging to offer you state-of-the-art systems. Customized Solutions: Every client is unique, and so are their energy needs.

With a capacity of 7.5 MWp, the Mubuga solar power plant provides up to 10% of Burundi's electricity, according to Gigawatt Global. The Dutch IPP also estimates that the plant is capable of supplying 87,600 Burundians. It also represents the largest international private investment in Burundi's electricity sector in nearly 30 years.

REPP's investment in Mubuga supports Burundi's Updated NDC (2021) conditional target to reduce GHG emissions by 23% by 2030. The project is identified as a priority project to help Burundi meet its unconditional 3% GHG emissions reduction target.

Here's why Evergreen Solar is the perfect choice for homeowners like me: 1. Our PG&E bill is now a mere \$10 a month! It's incredible how much we've saved, especially as we plan for the future. 2. Initially, we were skeptical about the 16 solar panels they recommended for our house, but it turned out to be the perfect amount. They understand the ...

Evergreen solar Burundi

With evergreen solar, you'll get what you pay for - peace of mind. In-house engineering and installation. Most solar panel companies hire 3rd parties for installs and outsource permit designs to India (you're basically paying ...

Powering Burundi with clean, sustainable, and reliable energy while empowering the local workforce. 147 MW Solar Power Plant: Powering Growth, Fuelling Development Doubling Burundi's energy capacity with reliable, renewable solar energy.

Burundi has officially inaugurated the country's first utility-scale solar field, as part of push to leverage renewable energy for improved access to electricity for homes and businesses. The grid-connected 7.5MW solar power plant, located in Mubuga, became operational in 2021.

The Mubuga Solar Power Station is a grid-connected 7.5 MW solar power plant in Burundi. The power station was constructed between January 2020 and October 2021, by Gigawatt Global Coöperatief, the Netherlands-based multinational independent power producer (IPP), through its local subsidiary Gigawatt Global Burundi SA.
