

Fiji best performing solar panels

Solar energy is a safe, reliable, and cost-effective way to reduce energy costs and reduce greenhouse gas emissions. With its potential to provide clean, renewable energy, solar energy in Fiji is an important part of the nation's efforts to move towards a more sustainable future.

Our wide range of solar panels and chargers provide you with an eco-friendly solution to supply a residential or commercial application with green energy. All solar panels are ideal for remote and isolated locations, saving the cost of running power mains wires.

Trina's panels are renowned for their excellent performance, high energy yield, and robust design, making them a popular choice for both residential and commercial solar installations. REC is another well-respected solar panel ...

Solar Fiji, supply and install the highest quality solar power systems in the South Pacific. Based in Nasinu, Suva, we specialize in Off Grid and Grid Connect Solar Power Systems and are official distributors of world leading brands such as Victron Energy, ...

Solar Fiji specialize in the engineering, supply & installation of grid connect and off grid power systems. Official Distributor & Service Partner of Victron Energy. We draw on decades of experience in the solar industry and a track record of successfully deploying over 20MWp of solar projects in Australia and the South Pacific.

Yasana Renewable Energy is a prominent solar renewable energy provider in Fiji, incorporating a strong commitment to sustainability and environmental stewardship. We emerged from the imperative to transition Fiji and the Pacific region towards efficient and ...

360 Energy is a Tesla Powerwall Certified Installer, which means we offer a customised solar-plus-battery solution that enables you to access the free, abundant power of the sun and reduces your reliance on fossil fuels. With Powerwall you can store solar energy generated during the day for use any time.

Clay Energy was established in 1998 providing off-grid solar, wind, and micro-hydro systems for rural homes and communities in Fiji. In May 2002 Clay Energy commissioned the first off-grid solar base station power system for Vodafone Fiji, which led to the rollout of these power systems to six mobile operators in the region.
