Can M-kopa Solar provide cheap solar power to rural homes?

This article is more than 8 years old. Using the pay-as-you-go model popularised by mobile phones, a remarkable Kenyan company, M-Kopa Solar, is providing rent-to-own solar energy products that will help provide cheap solar power to rural homes.

What is M-kopa Solar?

In just under three years M-KOPA Solar has provided affordable energy to over 200,000 homes in Kenya, Tanzania and Uganda. They have been so successful that in some cases those who were previously off grid have been supplying power to people on the main electrical grid during the frequent power outages.

Is M-Kopa launching a pilot operation in South Africa?

In a strategic expansion move, M-KOPA, renowned for pioneering the pay-as-you-go model for solar panels and smartphones in East Africa, is set to embark on its pilot operations in South Africa.

What is included in the M-Kopa IV solar home system?

The M-Kopa IV Solar Home System includes a solar panel, control unit, three low-energy LED light bulbs (one of which is a portable, rechargeable torch) and a rechargeable radio. The control unit also has a USB port for charging cellphones.

What does M-Kopa do?

This significant step comes on the heels of securing over \$250 million in debt and equity, positioning M-KOPA for a comprehensive expansion across the African continent. M-KOPA's innovative approach revolves around a pay-as-you-go model, providing accessibility to smart products, including solar panels and smartphones, for low-income households.

Where is M-Kopa based?

M-Kopa expanded from its east African base to Nigeria in 2021 and has more recently started operations in Ghana. It is testing the market in South Africa and also running pilot projects to finance electric motorbikes as part of a new e-mobility strategy.

Using the pay-as-you-go model popularised by mobile phones, a remarkable Kenyan company, M-Kopa Solar, is providing rent-to-own solar energy products that will help provide cheap solar power...

In a strategic expansion move, M-KOPA, renowned for pioneering the pay-as-you-go model for solar panels and smartphones in East Africa, is set to embark on its pilot operations in South Africa.

M-KOPA produces plug-and-play solar powered systems, designed to be used by millions of low-income households in Kenya, Tanzania and Uganda, who live off-grid. Customers are able to repay the capital costs of
