

Fixing new type of zinc sheeting for photovoltaic panels

Which PV modules are suitable for Rheinzink double standing seam roofs?

Suitable PV modules for RHEINZINK double standing seam roofs in the centre-to-centre dimensions 530 mm (600 mm belt) and 430 mm (500 mm belt). The individual modules can then be precisely installed in the specified seam arrangement. Rheinzink PV is suitable for both new roofing as well as retrofitting.

Can solar panels be installed on a standing seam roof?

One last thing to consider when installing solar panels to a standing seam roof is how to get the cable inside. Two of the most common options are one, to drill a hole into the roof and weather back in using a specialist cable inlet product.

What solutions are available for the connection to metal roofs?

For the connection to metal roofs we are offering you a variety of solutions depending on the type of roof and the positioning of the module. Trapezoidal and corrugated sheet metal Installation on trapezoidal and corrugated sheet metal while saving material. Without continuous rails. Standing seam metal roofs

Is Rheinzink PV suitable for a new roof?

Rheinzink PV is suitable for both new roofing as well as retrofitting. In response to the high demand for a functional and at the same time aesthetic photovoltaic system, we have broadened our expertise to include a competitive and customary high-quality solution in this field.

What's new with the nedzink Nova standing seam metal roof?

A continuous Alutrix 600 Vapour control layer bonded to the deck, Installation of the shiny new NedZink NOVA Standing Seam Metal Roof. The Klober Promo-Sec Structural Underlay provides an air space below the metal deck, a cost-effective alternative to using zinc with a coated back surface.

How do I install a ballast tray on a standing seam zinc roof?

A popular ballast tray is the console+ by renusol. Installing onto a standing seam zinc roof is relatively straightforward. Once the manufacture of the standing seam roof is known, a specialist clamp is selected. The clamps fix to the standing seam, the amount needed is dependent on wind loading calculations, typically four - six per panel.

Fibro-Solar is a sturdy photovoltaic mounting solution installed directly into the building's purlins. The reliability of this mounting system is supported by numerous tests (resistance to ...

Its typical design consists of the standing seam clamp, an angle, as well as the mounting rail (alternative basic rail of the Renusol TS+). This is automatically configured in the PV Configurator 3.0, just try it!

Fixing new type of zinc sheeting for photovoltaic panels

Range of products for undertaking photovoltaic installations on roofs. Solutions designed to guarantee a quick, efficient and reliable installation. We have different systems with their ...

This is a specific stainless steel solar panel bracket for bent tiled roofs, 5mm thick with an adjustment from 6 to 9.5 cm. This adjustable high bracket is suitable for all roofs with pitched ...

At Sun-Age, we specialize in structures for installing photovoltaic and solar systems since 2008.. We understand the particular attention required when fixing solar panels on tile roofs, which is ...

Installation of the shiny new NedZink NOVA Standing Seam Metal Roof. The Klober Promo-Sec Structural Underlay provides an air space below the metal deck, a cost-effective alternative to using zinc with a coated ...

Créawatt unveiled this week a new version of its ultra-light Luxsiol photovoltaic system for zinc roofs. It weighs only 3.25 kg/m² enabling all types of flat roofs made of bitumen, PVC,...

At the same time, it fixes the frameless solar modules, which are matched to the shear widths of the RHEINZINK double standing seam roofing. The innovative PV system is an architecturally sophisticated, visually roof-integrated solution and ...

The GSE system is a mounting system, allowing the in roof installation of standard solar panels on new buildings or buildings being renovated. The system has the advantage that it fits 95% of solar PV panels available on the market. ...

Fastening photovoltaic panels, structures, and supports for the installation of solar systems: our solutions. Sun-Age has been by your side since 2008 for fixing photovoltaic systems and solar ...

With the end of the Part L 2022 transition period in June, new energy efficiency regulations for homes have come into force and are changing the future of sustainable construction in the ...

Solar energy is better for your health. Solar technology is advancing rapidly. Installing solar panels will increase your EPC rating. Solar energy is addictive. Solar energy and electric vehicles go hand in hand. Solar ...
