

Free solar power generation scam

Are free solar panels a scam?

Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more. Or check out the Department of Treasury's guidance on clean energy.

What is a solar energy scam?

The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy or other home improvements designed to increase energy efficiency. If you agree to the scammer's offer, it could cost you tens of thousands of dollars.

Do Americans get free solar panels?

American homeowners might be eligible for federal tax credits for solar installations or state subsidies for solar energy, but not free panels. The U.S. government does not provide free solar panels, said a U.S. Department of Energy spokesperson. The department urges people to report scams to the .

What are energy scams?

Energy scams involve people pretending to be energy companies or regulators to get your money or personal information. These scammers may pretend to be your energy company, say they're from Ofgem or even from Energy Saving Trust to try and gain your trust.

Are 'free solar panel health checks' a scam?

We're regularly contacted by customers, who have received an unsolicited call or letter from another company, offering them a 'free solar panel health check' or warning about their solar PV system being at risk of failing. This is a common scam.

What should I do if a solar business is a scam?

Protect your personal information. Don't respond to unexpected requests online or on social media for your name, address, or other personal information to "see if you qualify." At best, this is someone generating leads to sell, not actual solar businesses. At worst, they're scammers trying to steal your identity.

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll cost to get and install solar ...
