

Voltalia is the sole winner of the fifth period of the CRE 4 tender for non-interconnected areas for ground-based solar power plants in French Guiana. The project, called "Parc Sable Blanc", combines a five-megawatt photovoltaic power plant with a lithium-ion battery storage facility with a capacity of 5 megawatts and of 9.3 megawatt-hours.

In French Guiana, commissioning of a combined solar and storage power plant Voltalia (Euronext Paris, ISIN code: FR0011995588), an international player in renewable energy, announces today...

Voltalia is the sole winner of the fifth period of the CRE 4 tender for non-interconnected areas for ground-based solar power plants in French Guiana. The project, called "Parc Sable Blanc", ...

French renewable power plants operator Voltalia SA (EPA:VLTSA) on Monday announced the commissioning of the 3.8-MW Savane des Peres solar park in French Guiana, which has an integrated battery storage component.

The Centrale Electrique de l'Ouest Guyanais (CEOG) project under construction in French Guiana, will be the world's biggest hydrogen-based renewable energy storage facility, upon completion. Also called the Western French Guiana power plant, the project includes a 55MW photovoltaic (PV) solar park and a 128MWh hydrogen-based energy storage ...

Voltalia has won the tender launched by the French space agency CNES to build a 5-hectare photovoltaic park (GlobeNewswire) - Voltalia (Euronext Paris, ISIN code: FR0011995588), an international player in renewable energies, and CNES (Centre National d'Etudes Spatiales), the landowner of the Guiana Space

Renewable power plants operator Voltalia SA on Thursday announced the commissioning of its 5-MW Parc Sable Blanc solar farm with an integrated storage system in French Guiana. The Paris-based company secured the project in a government tender for solar projects in non-interconnected zones (ZNIs) in May 2021 .

Voltalia has won the tender launched by the French space agency CNES to build a 5-hectare photovoltaic park with a capacity of 4.2 megawatts at the Kourou space base. CNES is financing the construction of the plant, which will cost EUR5 million and benefit from the French Recovery Plan.

Renewable energy developer Voltalia will build a 5-hectare photovoltaic park at the Guiana Space Centre in Kourou, French Guiana. The park will have a capacity to generate 4.2MW of solar energy. It is expected to be operational by June 2023.

Renewable power plants operator Voltalia SA (EPA:VLTSA) on Thursday announced the commissioning of
