

Our 2024 Western Europe solar PV outlook focuses on the main solar market drivers, opportunities and barriers for large-scale development and distributed solar generation in Germany, France, the Netherlands, Belgium, Luxembourg, Austria and Switzerland.

This new power plant represents another step forward for the energy transition underway in the territory and will help French Guiana meet its goal of energy self-sufficiency by 2030. The installation will also bring EDF closer to its Solar Plan's objectives of making it one of France's leading players of solar energy with a 30% market share by ...

The cost of solar energy paired with battery storage on France's island territories has fallen yet again, as the European country awarded contracts to winning bidders in its latest ...

Solar-plus-storage projects on France's overseas territories are on course to add around 200MWh to global battery storage deployment figures, with the latest power plant just completed by independent renewable energy producer Albioma.

Top French state officials have helped cut the red ribbon of a floating solar plant that is being touted as Europe's largest, a project delivered by Paris headquartered Akuo Energy.

The cost of solar energy paired with battery storage on France's island territories has fallen yet again, as the European country awarded contracts to winning bidders in its latest tender process. Results have been announced for the third annual edition of France's tenders for projects enabling the self-consumption of new renewable energy ...

Supermarket chain Carrefour has entered a partnership with GreenYellow, a major player in France's energy transition, to fit solar panels at its stores across the country. The collaboration will see photovoltaic power-generating equipment installed in 350 hypermarket and supermarket car parks.

Supermarket chain Carrefour has entered a partnership with GreenYellow, a major player in France's energy transition, to fit solar panels at its stores across the country. The collaboration will see photovoltaic power ...

There is quite a lot renewables-plus-storage on French islands like Guadeloupe and Martinique, from dispatchable renewable energy tenders. Those represent a small but significant recurring market of course, but within mainland European French borders, there were just a couple of megawatts of commercial installations as recently as 2019, Baschet ...
