Fuel storage solutions Seychelles

The Seychelles Petroleum Company Limited (SEYPEC) was incorporated in April 1985 following the closure of the then Shell Oil Company. In a nutshell, SEYPEC's operations revolve around the supplying of fuel to the domestic market, bunkering of vessels, aviation refuelling activities and the management of its shipping arm.

All of SEC's energy storage solutions are designed and developed in-house, using SEC's legacy technical blueprints. With solar panels and batteries that presently span 26 ranges, and 1040-plus models and sizes. We have our finger on the pulse of new products and new technology. Innovation is important, but we also continually work to
