

Gabon natron company

What is Natron Energy?

At Natron Energy, we're changing the way the world looks at critical power and industrial batteries for high-powered applications like AI, data centers, peak shaving, and power quality management. Natron sodium-ion solutions outperform, are significantly safer, and are far more sustainable than lithium-ion options. Who is Natron Energy?

Why is Natron Energy launching a sodium-ion battery manufacturing facility?

"Today is a momentous day for Natron Energy. This flagship manufacturing facility will dramatically accelerate our efforts to deliver sodium-ion batteries to customers who are hungry for safe, reliable, and environmentally responsible energy storage solutions," said Colin Wessells, Founder and co-CEO, Natron Energy.

Is Natron Energy a publicly traded company?

Natron Energy is a privately held company and while we appreciate the immense interest from individual investors, there are no publicly traded stocks, nor individual investment opportunities available. Our unique sodium-ion batteries deliver superior performance, safety, and sustainability compared to traditional alternatives.

Who makes Natron batteries?

Build America. Buy America. With products sourced from minerals readily available in the U.S. and manufactured in Michigan, Natron Energy is a U.S. company that meets BABA requirements. The Power of Blue. The secret behind Natron's sodium-ion batteries is our patented use of Prussian blue electrodes.

How much does Natron Energy Invest in Kingsboro?

The nearly 1.2 million sq. ft. facility, located at the 437-acre Kingsboro megasite, will represent a total investment of nearly \$1.4 billion from Natron Energy, facilitated in part by a Job Development Investment Grant (JDIG) approved by the state's Economic Investment Committee earlier today.

What does Natron do?

Natron's mission is to transform industrial and grid energy storage markets by providing customers with lower-cost, longer-lasting, more efficient, safer batteries. Natron's products are UL 1973 listed, offer higher power density, faster recharge, and significantly longer cycle life than incumbent technologies.

Founded in 2012 by CEO Colin Wessells, Natron Energy is a privately held company based out of California.

Gabon natron company

With a state-of-the-art location in Santa Clara and North America's first mass-scale sodium-ion battery manufacturing plant in Holland, Michigan, Natron continues to scale up production to meet the needs of a growing customer base.

Colin Wessells founded Natron Energy as a Stanford Ph.D. student in 2012. His vision to build a company to deliver ultra-safe, high-power batteries started in a garage in Palo Alto. After countless hours of development with an ever-growing team of scientists and engineers, Natron expanded, creating a state-of-the-art pilot production line for ...

Founded in 2012 by CEO Colin Wessells, Natron Energy is a privately held company based out of California. With a state-of-the-art location in Santa Clara and North America's first mass-scale sodium-ion battery manufacturing plant ...

Natron's milestone marks the first-ever commercial-scale production of sodium-ion batteries in the U.S. These batteries offer higher power density, higher cycles, a domestic U.S. supply chain...

Natron to invest nearly \$1.4 billion in the facility, supported in part by a North Carolina Job Development Investment Grant (JDIG), creating more than 1,000 high-quality local jobs and growing...

Lors du Central Africa Business Energy Forum (CABEF) tenu à Libreville du 23 au 25 octobre 2024, Hervé Bertrand Nnang Engue, directeur général adjoint de Gabon Oil Company, a souligné les défis et les opportunités liés à l'exploitation du gaz en Afrique centrale.

Natron's cutting-edge sodium-ion batteries presented an ideal opportunity to both potentially expand our sustainability investment portfolio to our ground operations, and to help make our...

Les projets de Gabon Power Company sont destinés à satisfaire la demande des particuliers et des industriels, en forte augmentation dans un contexte de croissance démographique et d'industrialisation de notre économie. Ils s'inscrivent dans une démarche de préservation de l'environnement et du patrimoine naturel du Gabon.
