

The Netherlands is known for scattered showers, abundant waterways, and actively-used agricultural land, so it took ingenuity for the small country to soar to the top of the continent's solar...

Nearly 80% of solar power installed in the Netherlands in 2017 was for small systems of less than 10 kW, a large part being rooftop Solar PV. Larger systems over 500 kW accounted for just 6.9% of the total. By the end of 2018 private residential rooftop systems had an installed capacity of 2,307 MW, businesses rooftop systems 1,662 MW whilst solar parks amounted to 444 MW.

The cost to buy solar panels in the Netherlands varies per company, but you can expect to pay between EUR400 and EUR500 per solar panel. Installation fees will also usually be included in the offer by a solar panel company.

The Netherlands offers a favorable environment for harnessing solar energy, both climatically and policy-wise. Financial benefits like subsidies and net metering make solar panel adoption economically attractive.

Energy Research Centre of the Netherlands (ECN) expects that now the application of solar energy really starts to take off, the cost price of usable energy from the sun has gone down and even become lower than the cost price of the increasingly expensive conventional energy.

Design a PV system for your location within the Netherlands, view the simulated solar power production of the whole Netherlands or find out what solar panels could offer you. Discover and play around with the several online, free-to-use tools and ...

The Dutch PV Portal has been created to provide publically accessible information on solar energy in the Netherlands, based on scientific research performed by the Photovoltaic Materials and Devices (PVMD) group at Delft University of Technology.

The Netherlands solar power market is one of the fastest growing solar markets in Europe. In 2020, it managed to deploy 2.93 GW of solar capacity and it marks a growth rate of 40%. This data pushed the cumulative figure of the country's solar market to 10.11 GW.
