

Greenfield solar Bahamas

NASSAU, BAHAMAS -- Inti Corporation, a Bahamian provider of renewable energy solutions engaged to construct and operate the \$15 million Lucayas Solar Power project on Grand Bahama Island, has announced the upcoming commissioning of its Fairfield solar site scheduled for the end of this month.

Experience the inauguration of the Fairfield Solar Plant, a pioneering venture in renewable energy in The Bahamas. Financed by IDB Invest under a power purchase agreement, this project is set to reduce carbon emissions significantly and contribute to United Nations Sustainable Development Goals.

As the Bahamas has close to six daily peak sun hours. Solar Power can offset a significant part of your power bill. Our goal is to design and build systems that can achieve maximum independence from the ever increasing cost of power.

Fairfield is the one of two solar farms operated by LSP on Grand Bahama. The second location at Devon East Grand Bahama is expected to be completed by next month. Together the \$15 million, 30-acre solar farms will provide 11 megawatts (MW) of solar generation or approximately six percent of the island's current electricity needs.
