

Heroes solar Fiji

Solar Fiji is comprised of a team of dedicated and hardworking professionals committed to advancing sustainable energy solutions in Fiji. We specialize in the design, supply, installation and service of stand alone and grid connect power systems, providing global warranty protection and long term after-market support.

Solar energy in one of the residential house in Fiji. Picture: SUPPLIED Energy from the sun is free and we are not utilising that to an obvious solution to decarbonize our world, says a manufacturing tycoon Mark One Apparel managing director Mark Halabe.

Yasana Renewable Energy in Fiji acts as a comprehensive provider of complete solar energy solutions. Encompassing Development, Financing, Engineering, Procurement, Construction (EPC), Independent Power Producer (IPP), Operation and Maintenance (O& M) services tailored for Fiji and the wider Pacific region.

Harness the Fijian sun's boundless energy to power your home or business with clean, sustainable solar solutions from Solar Nexus Fiji. We are a leading provider of solar panel systems and batteries, offering a complete range of services from initial consultation and design to expert installation and ongoing maintenance.

Solar Fiji, supply and install the highest quality solar power systems in the South Pacific. Based in Nasinu, Suva, we specialize in Off Grid and Grid Connect Solar Power Systems and are official distributors of world leading brands such as Victron Energy, ...

Solar energy is an abundant, clean, and renewable energy source that can be used to generate electricity, heat, and light. In Fiji, solar energy is becoming increasingly popular due to its cost-effectiveness and environmental friendliness.

Solar Fiji specialize in the engineering, supply & installation of grid connect and off grid power systems. Official Distributor & Service Partner of Victron Energy. We draw on decades of experience in the solar industry and a track record of successfully deploying over 20MWp of solar projects in Australia and the South Pacific.

Bringing solar and other renewable energy technologies to both highly populated urban and remote rural villages will improve quality of life and reduce costly government infrastructure investments in dirty fossil fuel plants. VES offers a broad range of grid-tied and independent off-grid solar energy systems.
