Why are the Cocos Islands called the Keeling Islands?

The territory's dual name (official since the islands' incorporation into Australia in 1955) reflects that the islands have historically been known as either the Cocos Islands or the Keeling Islands. The territory consists of two atolls made up of 27 coral islands, of which only two - West Island and Home Island - are inhabited.

Is there plastic pollution on the Cocos (Keeling) Islands?

"Significant plastic accumulation on the Cocos (Keeling) Islands, Australia". Scientific Reports. 9 (Article number 7102): 7102. Bibcode: 2019NatSR...9.7102L. doi: 10.1038/s41598-019-43375-4. PMC 6522509. PMID 31097730. ^ McGrath, Matt (16 May 2019). "Plastic pollution: Flip-flop tide engulfs 'paradise' island". BBC News. Retrieved 7 October 2019.

How do the Cocos (Keeling) Islands communicate?

The Cocos (Keeling) Islands have access to a range of modern communication services. Digital television stations are broadcast from Western Australia via satellite. A local radio station, 6CKI - Voice of the Cocos (Keeling) Islands, is staffed by community volunteers and provides some local content.

Where can I watch the Cocos (Keeling) Islands?

It is available in paper and electronic formats. The Cocos (Keeling) Islands receives a range of digital channels from Western Australia via satellite and is broadcast from the Airport Building on the West Island on the following VHF frequencies: ABC6, SBS7, WAW8, WOW10 and WDW11

What is the capital of Cocos (Keeling) Islands?

The capital of the Territory of Cocos (Keeling) Islands is West Island while the largest settlement is the village of Bantam, on Home Island. Governance of the islands is based on the Cocos (Keeling) Islands Act 1955 and depends heavily on the laws of Australia.

An exciting opportunity for the United States. Wind generation is already a favored and extensively used alternative-energy source in the U.S. However, opportunities to fully utilize the potential of onshore wind resources in North America are hampered by the large geographical distances between favorable mid-western wind resources and the large population centers ...

Hitachi Energy has installed a 6.25MW/7.5MWh battery energy storage system (BESS) in the Faroe Islands for utility SEV, with substantial benefits to a connected wind farm. The energy solutions arm of the large

Hitachienergy Cocos Keeling Islands

Japanese conglomerate announced the completion of the 1.2-hour project, the largest in the North Atlantic archipelago, last week (1 ...

The Cocos (Keeling) Islands consist of two flat, low-lying coral atolls with an area of 14.2 square kilometres (5.5 sq mi), 26 kilometres (16 mi) of coastline, a highest elevation of 5 metres (16 ft) and thickly covered with coconut palms and other vegetation.

Scuba diving at Cocos Keeling islands is nothing short of spectacular. Fabulous visibility, pristine coral reefs, abundant marine life and all the trappings of a tropical paradise without the flashy resorts. Yes, it is isolated and it takes some effort to get there, but this is more than offset by the quality of the diving, the friendly locals ...
