

# How to display the power generation of solar power station app

Where can I see a forecast of my solar power production?

There is a section within the app called the Optimization Area where you can see a forecast of your solar power production. This gives you some idea as to how you can manage that energy and the app will suggest ways of using your energy more sustainably.

How do I monitor my solar system?

As standard, this monitoring includes: details of your system. Note that you can also read solar production from the generation meter (which is the most accurate source), while online portals are based on inverter calculations. Most system monitoring is available via an online platform, mobile app or both.

How can I track my solar energy consumption and storage?

If you are looking for a smart and easy way to track and manage your solar energy consumption, generation and storage, you might want to check out the myenergi app. This clever little app lets you remotely monitor and control your set of myenergi devices, such as the Zappi EV Electric Vehicle Chargers, the Eddi...
