Does a 39 Deluxe have a fan on the generator?

As I pickup mentioned, a 39 std has the fan on the generator. A 39 Deluxe would have had the fan mounted to the end of the crank. What I have is a 59AB with an alternator installed. The fan would hit the hoses if it were adapted to the alt. It would hit the sheet metal below the rad if it were mounted on the crank.

Does a GM alternator fan work with a pulley?

Picked up a fan that should work with a pulley on the alternator. Nope, too high, even though there's a clearance trough up in the tank. Too high by nearly 2". I'm considering a Powergen and forget the mokey biz of the GM alternator.
