

How to write the pinyin of photovoltaic bracket

How to type Chinese characters phonetically?

PinyinThe pinyin input method is the most popular way to type Chinese. It uses the romanization system called Hanyu pinyin to input Chinese characters phonetically. Pinyin assigns roman letter spellings to the pronunciation of Chinese characters. As you type the pinyin letters,the IME shows you character options that match the pinyin.

How to use Chinese text annotation tool?

Chinese text annotation tool is available to assist you in reading Chinese text. The help comes in several ways: adding spaces between words, adding inline Pinyin or Zhuyin annotations above words and adding pop-up annotations with English definition of the word. Pop-up annotation tooltips open when you move mouse over the word.

How do you say Deng Xiaoping in pinyin?

For example,in pinyin the given name of the hugely respected former Chinese leader ??? (dèng xiao píng) - Deng Xiaoping is written exactly the same as ?? (xiao píng) - which means "small bottle". An important distinction! While pinyin is a great pronunciation tool,it's not a good strategy for reading Chinese in the long term.

Why does Yoyo separate pinyin sounds?

Yoyo's courses separate each pinyin sound instead of combining them into compounds,because that's how real written Chinese works. Written Chinese doesn't separate compound words from each other or have "capitalization";and treating pinyin this way sometimes leads students to rely on it too much.
