

Installation of photovoltaic panels on traditional tiled roofs

Can solar panels be installed on a tiled roof?

Installing solar panels on roofs is a popular choice for several reasons: low chances of shade from nearby objects, ample space that serves no other purpose, and closeness to your home. How are solar panels fixed to a tiled roof? Solar panels are mounted on a system of rails and roof hooks. The rails float above the roof tiles.

Are solar roof tiles better than traditional solar panels?

Limited efficiency: Solar roof tiles generally have slightly lower energy efficiency compared to traditional solar panels. However, advancements in technology are continually improving the efficiency of solar roof tiles.

Complex installation process: Installing solar roof tiles can be more complex and time-consuming than traditional solar panels.

How do I install roof-integrated solar panel roof tiles?

Roof-integrated solar panel installation is a simple process with Marley SolarTile® - just secure the fixings, place the first tile, push-fit additional tiles and then attach final fixings and flashings.

How do solar roof tiles work?

Unlike traditional solar panels, which are mounted on top of existing roofs, solar roof tiles seamlessly integrate into the roof's structure, providing an aesthetically pleasing and efficient energy solution. They are also referred to as integrated solar panels. How do photovoltaic roof tiles work?

Are integrated solar panels a good option for your roof?

If you're hamstrung by a tight budget but you love the aesthetic benefits of solar roof tiles, we recommend looking at integrated solar panels. Integrated solar panels are installed at the felt and batten layer of your roof, so, like solar roof tiles, they sit snugly in your roof for a more subtle, unobtrusive look.

What are solar roof tiles?

Solar roof tiles are slightly different to other types of solar technology as they blend seamlessly with your roof while providing your home with green electricity. This makes them the perfect match for people who want to benefit from cheaper energy bills and renewable energy, but don't like the look of solar panels.
