

Installing photovoltaic panels at home is a scam

Are free solar panels a scam?

Free solar panels are indeed a scam. This deceptive marketing tactic is often used to promote solar leases and power purchase agreements (PPAs), which come with long contracts and monthly payments that escalate over time.

Is home solar a scam?

Scams are a blight on the solar industry, but that doesn't mean home solar itself is a scam. Here are some tricks to avoiding solar scams, finding reputable installers, and enjoying the benefits of home solar. If you only listen to one sales pitch, it can be easy to get sucked into a scam.

How do I avoid solar panel scams?

Getting multiple quotes and thoroughly vetting installers is the best way to avoid solar panel scams. You can also use solar.com to compare quotes from our network of thoroughly vetted installers.

Are 'free solar panel health checks' a scam?

We're regularly contacted by customers, who have received an unsolicited call or letter from another company, offering them a 'free solar panel health check' or warning about their solar PV system being at risk of failing. This is a common scam.

Are solar leases and PPAs a scam?

No, not all leases and PPAs are scams. However, they seem to be a breeding ground for deceptive and predatory practices, including the old "government is paying people to go solar" scam. Related reading: Solar Leases vs. Solar Loans vs. Solar PPAs

Are 'fake' solar companies a scam?

Beware of any company asking you to make a big deposit before they have completed their installation. This is one of the most common ways 'fake' solar companies have targeted consumers - whereby they take a hefty deposit and then never turn up to carry out the installation. This is common solar scam.
