Where can a ground-mounted solar panel be installed?

Ground-mounted solar panels can be installed anywhere with good sun exposure and sufficient amounts of open space - a minimum of 350 square feet is usually required. Ground-mounted solar panels are also known as backyard solar panels, free-standing solar panels, and ground-mount PV systems.

How do I install a solar system?

You'll also need to choose how you want to install your system. There are two options: Standard ground-mounting: this uses a racking system, whereby standard solar panels are fixed to a metal frame in a kind of "rack". Pole mounting: solar panels are placed on a pole that elevates them higher off the ground compared to a standard racking system.

How do I plan a solar panel installation?

Choose a supplier and establish if the installation will fall under Permitted Development or if full planning permission is required 3. Make space for the solar panel accessories (solar inverter, cables and solar batteries, if desired), for instance in a plant room 4. Plan a day for installation 5.

How much space do you need to install solar panels?

For an average 3-bedroom house, 20-35 sq metres of space is required for ground mounted solar panels. This estimate differs according to the size of the solar installation. Therefore, you will need to be aware of the planning permissions required to install them.

Can a solar panel system be installed on a property?

If your property has a lot of outdoor space, it could fit a larger solar panel system on the ground than on the roof, generating more electricity. Ideally a property should have at least 50 square metres of land, otherwise it's unlikely they'll be able to fit enough solar panels to meet its energy needs.

How do I install ground-mounted solar panels?

When it's time to fit your ground-mounted solar panels, installers will first need to dig a trench - around 450mm deep - from the solar panels to your property. This is to fit the cable that will transmit power from your array to your home's electricity supply.
