

# Is it illegal to sell photovoltaic panels

Are solar panels legal?

However, it's crucial to understand that while installing solar panels is legal, certain conditions must be met. For most domestic properties, solar panel installations are considered a "permitted development" and do not require planning permission, provided they respect certain size criteria.

Are solar panels legal in the UK?

All electrical work in the UK must comply with the national standard, BS 7671. Therefore, it's not just about the legality but also the safety and reliability of your solar panel system. While the Feed-in Tariff (FIT) scheme has concluded for new applicants, those already part of it continue to benefit from the incentive.

Can I install solar panels if I don't meet building regulations?

Your local authority can also apply for a Confiscation Order to take away any money you've earned with your system - so there's absolutely no benefit to installing solar panels that don't meet building regulations. It's crucial that your solar installation follows all building regulations.

Do solar panels void warranties?

Yes, self-installing solar panels can void warranties and may not be covered by your home insurance. Warranties and insurance policies often require professional, certified installation. Is it more cost-effective to install solar panels myself?

Can solar panels be installed on a listed home?

To install solar panels on a listed home, you must apply for a Listed Building Consent (LBC) from the LPA. For your LBC application to succeed, you'll generally have to demonstrate several things to your council, including the following: The solar panels won't significantly alter or detract from the property's aesthetic qualities.

Can solar panels be built without permission?

This is because they generally fall under permitted development rights, which allow homeowners to make reasonably sized changes without getting permission. The exceptions to this rule are typically flats, listed buildings, homes in conservation areas, and ground-mounted installations. What are the building regulations for solar panels?
