

Is the photovoltaic panel recruitment scam real

Is going solar a scam?

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll cost to get and install solar panels. Here's how to steer clear of the scams: Do some research.

Are 'fake' solar companies a scam?

Beware of any company asking you to make a big deposit before they have completed their installation. This is one of the most common ways 'fake' solar companies have targeted consumers - whereby they take a hefty deposit and then never turn up to carry out the installation. This is common solar scam.

How do I avoid solar scams?

Here are some of our recommendations for avoiding solar scams: The saying "there's no such thing as a free lunch" applies when shopping for solar! If you see ads on social media or have a door-to-door salesperson stop by your home and share special programs that pay you to go solar, they're likely not legitimate.

Are you getting ripped off when buying solar panels?

Solar is expensive, no matter how you shake it. And savings sound nice, but if you get stuck with an overpriced solar panel system that's underperforming, you're going to save much less. That's why we put together these tips to avoid getting ripped off when buying solar panels -- backed by expert advice.

How do I know if a solar contract is a scam?

Pay attention to warranties, cancellation policies, payment schedules, and try to spot any hidden fees. Honest businesses will give you time to go over the terms of the contract, understand the agreement, and let you sign it in writing. To learn more, visit [ftc.gov/solar](https://www.ftc.gov/solar). And if you spot a scam, tell the FTC.

Are solar panels free?

As far as actual free solar panels go, there are some small programs in places, like the Solar for All program in Washington D.C., geared toward low-income households that offer modestly-sized solar panel systems for free. Very few homeowners will be able to qualify for these low-income solar programs. How much will solar panels cost you? 2.
